[Eplan Electric P8 2.0 SP1 4831 64Bit Crack.31](#)

The screenshot displays the EPLAN Electric P8 software interface. The main window shows a project titled "Unknown product variant - EPLAN-DEMO - [=EB3+ET1/3]". The left sidebar contains a project tree with a filter set to "Active". The tree lists components such as CA1, EB3, ETD, ETA, ET1, and various drive stations (Antriebe Station 1-4, Antrieb Förderband, Steuerung Förderband, EB Förderband, AB Förderband, and Übersicht PE-Schiene). Below the tree is a "Graphical preview" window showing a simplified view of the circuit.

The main workspace displays a detailed electrical circuit diagram with three circuit breakers labeled F9, F10, and F14. A dialog box titled "Placeholder - Drehstrom" is open, showing a table of assignment values for three motor types: "Kleiner Motor 0,75", "Motor 7,5", and "Großer Motor 18,5".

| Variable       | Kleiner Motor 0,75 | Motor 7,5          | Großer Motor 18,5 |
|----------------|--------------------|--------------------|-------------------|
| Motorschutz    | 0-2,5A             | 0-16A              | 2-40A             |
| Leitungsschutz | 6A                 | 32A                | 64A               |
| Schaltleistung | 0,75KW             | 7,5KW              | 18,5KW            |
| Querschnitt    | 1,5mm <sup>2</sup> | 2,5mm <sup>2</sup> | 10mm <sup>2</sup> |
| Motorleistung  | 0,75KW             | 7,5KW              | 18,5KW            |

Below the table, there are labels for "Drive Robot 2A", "Drive Robot 2B", and "main drive". At the bottom of the dialog box, there is a metadata table:

|              |            |       |                                        |            |
|--------------|------------|-------|----------------------------------------|------------|
| Date         | 11.04.2008 | EPLAN | EPLAN Software & Service GmbH & Co. KG | EPLAN-DEMO |
| Erstellt von | max        |       |                                        |            |
| Kopf         |            |       |                                        |            |
| Erstellt     |            |       |                                        |            |

The status bar at the bottom indicates "ON: 4,00 mm", "Logic 1:1", and "# \*".
